

May 7, 1975

mony, as I suggested, that the Board of Lands and Funds, or certain members or employees thereof, are actively pushing this. I think we should get this resolved and straightened out. Possibly bracketing it would do this.

PRESIDENT: Senator Keyes, would you please speak to the bracketing issue.

SENATOR KEYES: Yes. Mr. Speaker, I was going to ask that you support the bracketing. I will have, from our county assessor, the assessed valuation and the actual valuation. I will go the record of deeds and get you the purchase price of this land and all of this information will be available to you in written form. It should be down here tomorrow, but for sure by the next day.

PRESIDENT: Senator Koch, could you speak to bracketing please.

SENATOR KOCH: Mr. President, I'd be happy to. I'm not opposed to bracketing. However, I guess I'm disappointed in the body to some extent. I gave to each member of this body eight pages of I think very explicit design. I doubt that any bill, or any introducer of any bill, has gone to this much trouble to place before you completely, totally, candidly and honestly what the whole situation is all about. I just am disappointed people have not taken time to read it. If they are uninformed, outside of Senator Cavanaugh's question, I will . . . his question is a bonafied question. He is the first man who ever brought this question to the body. Therefore I would support his bracketing motion. Hopefully it's not something to deter the bill. I think it has great merit.

PRESIDENT: Senator Kelly, again on the motion to bracket. Do you wish to be heard?

SENATOR KELLY: Yes. Mr. President, I would agree with the bracketing motion and would state several reasons. We have a wide range of conflicting dollar values on this property that I was not aware of before this debate. We're having an extremely difficult time of seperating the question of investment procedures and educational procedures. There is a difference between investment and education. We're addressing it in this bill. We obviously need some time to determine whether this property should rightfully be in the Lands and Funds under lease to the Metropolitan Educational Programming Agency, or whether it should be under the State Parks Commission, or maybe under the Sarpe County park system. Certainly this property should be available to the public in the Omaha area. It is my intention with my amendment strictly to see that the rest of the school children in Nebraska did not suffer an income loss. We're not able to determine that this morning. These are the particular reasons that I would support the bracketing motion.

PRESIDENT: Senator Cavanaugh, do you wish to be heard? Apparently the . . . alright. The question is, alright . . . is there . . . Senator Cavanaugh, could we ask for unanimous consent? Apparently there is unanimous consent.
